Making a difference is what wakes us up in the morning; our challenge is to improve the well-being of another person wherever we can.

We have a bigger role in society than we believe. Our 'Inspire a Generation' programme is to support the most vulnerable in Bangladesh.

Developing Bangladesh

Travelling each day, we come across many different personalities. Most surprise us with the hidden abilities they hold.

At Tech ICS we want to empower individuals and families in Bangladesh through education.

Current Programme

SK Associates Foundation runs a Computing Internship Programme for students each year in-house.

To be part of the programme, send us your CV with all your experiences as well as a cover letter to give us the reasons why you would like to be a part of this initiative.

Our email: info@techics.com, with the subject: Development Programme. **Do note due to the limited spaces, all candidates will be carefully selected.**

Enterprise Development

The Enterprise Development is an initiative set up to support individuals setting up their business in Bangladesh.

Who is it for?

Residents of Bangladesh setting up a small business.

What can I receive?

- ✿ We can provide preliminary investment funds of up to 25,000 BDT to enable you to set up your business.
- ✿ Provide ongoing support once every 6 months to check whether you are proceeding in the right direction.

What do I need to provide?

You will need to email us your business plan and a cover letter outlining the reasons why you require our support. This can be sent to info@techics.com.

What do you (Tech ICS) take?

- We will invest funds and time in to your business for a 10% stake in to your business.
- The 10% profits each year will be reinvested in to the Enterprise Development programme to support other businesses.

Can I buy back the stake?

You can buy back the 10%, however this is something we will ensure is clarified in an agreement on how this will work.

Bangladesh

Based in Sylhet, Bangladesh we are positioned in a developing country where needs are great for daily living. Tech ICS work with the local community in Sylhet, Bangladesh.

Getting Involved

There is no exception to any one individual, we know you can add value. Our Management team would love to hear ideas and the prospect of supporting the programme.

Individuals

Where you would like to visit a local school and become part of an initiative contact us on info@techics.com. We will contact you on upcoming programmes you can attend.

Educational Institutions

If you are a school based in Bangladesh and would like to become part of our initiative, contact us email on info@techics.com.

Businesses

If you are a business based in Bangladesh and would like to become part of our initiative, contact us email on info@techics.com.
